

RAS BEIRUT 2099

YOUR NEW COSMOPOLITAN LIFESTYLE

The trend of smaller apartments is shaping the world of architecture, inspiring teams like Cityscape to creatively develop compact apartments and lofts. The ergonomic design maximizes space saving while offering luxury, comfort, efficiency and ease for modern households.

Cityscape welcomes you to your innovative home that offers a cosmopolitan flair and embodies your individual needs.

YOUR
LOCATION

Ras Beirut
2099

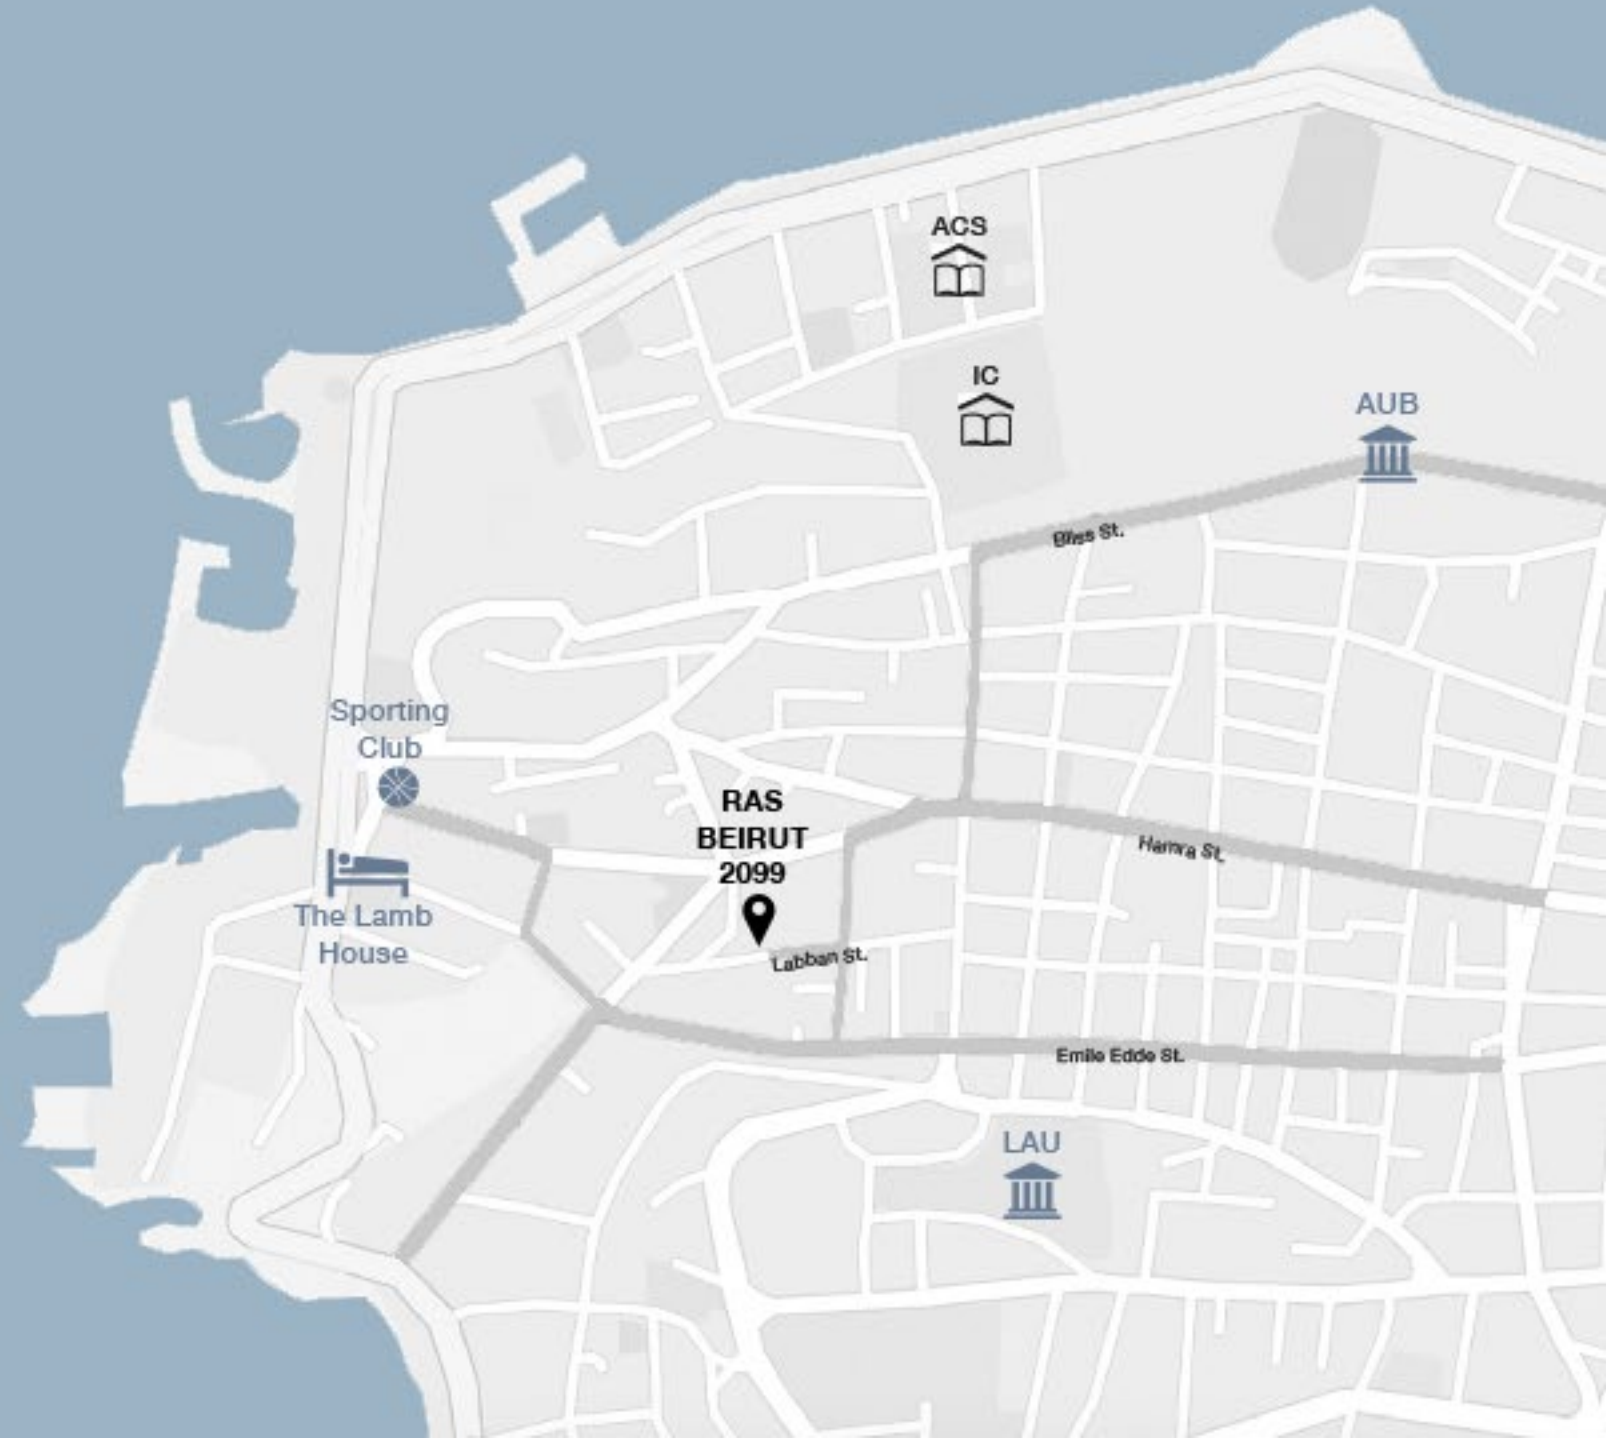

YOUR LOCATION

Located on a quiet residential street, Ras Beirut 2099 offers the best of both worlds: the serenity, comfort and security of a home away from the city's chaos and noise, as well as the proximity to some of the country's most interesting landmarks and busiest streets.

Situated in the heart of the city, Ras Beirut 2099 is within a two minute walk from the bustling Hamra Street as well as from Avenue de Paris and its Corniche promenade and the picturesque Raouche rock.

The proximity of Ras Beirut 2099 to the most renowned accredited international schools and universities in the country is a definite advantage; these include the International College (IC), the American Community School (ACS), the American University of Beirut (AUB) and the Lebanese American University (LAU).

YOUR BREATH OF FRESH AIR

Whether you chose to go for a walk, a jog, a bike ride or a swim, Beirut 2099 offers you ease of access to the palm-lined Corniche Promenade on Beirut's Avenue de Paris with a breath taking view of the beautiful Mediterranean Sea on one side and the peaks of Mount Lebanon on the other.

The Corniche runs 4.8 kilometers long and skirts the Pigeon Grotto (commonly known as Raouche), an area where vestiges of Neolithic age civilization have been uncovered. Take a refreshing walk, join the many joggers or enjoy a swim at one of the many beach clubs spread out along its entire length.

With cafes and restaurants lining the avenue, the Corniche offers the sports enthusiast more than just a breath of fresh air.

YOUR NEW LIFESTYLE

Your home at Ras Beirut 2099 is a couple of minutes away from Hamra Street, the trendy commercial district.

In the 1960s and 1970s Hamra was considered one of Lebanon's main attractions and received a large number of tourists and visitors.

Today, the revived street is once again a popular site for shopping, business meetings and nightlife. It is lined with shops and stores and has several cafes and restaurants offering local as well as international food.

YOUR GARDEN ESCAPE

Ras Beirut 2099 brings nature to your doorstep with a lush garden welcoming you at the building entrance. The garden breathes life into the neighborhood, offering residents a serene escape from the busy city life.

The upscale apartment building features a beautiful external façade with plants on every floor to bring greenery to the city. With an automated watering system, you can enjoy the beauty of plants without having to worry about maintenance. A simple walk in the garden can relieve you from the stresses of your daily routine.

YOUR LEISURE & FITNESS

Built into the overall concept of Ras Beirut 2099 is the care for the well-being of its residents. The common rooftop leisure area has a beautiful terrace which rises far above the city and is ideal for relaxation and family gatherings. A well equipped private gym and health center, accessible only to tenants, gives you the option to maintain fitness and relieve daily stress.

MODERN APARTMENT FLOORS

(FLOOR 1 – 10)

Cityscape was launched by a young team of renovation specialists. In just a decade it grew to become one of the most competitive in the field of construction and development companies in Lebanon. Cityscape is built on vision, a keen ability to recognize future trends, a flair for modern design, a successful track record and the drive to take on challenging projects. Today Cityscape goes beyond designing modern spaces and building monumental structures. It transforms spaces into a new concept of lifestyle.
